

The USYak meeting on April 7, 2021 was not an official meeting because there was not a quorum of board members present.

Topics that were discussed with the people present:

- The bylaws need to be updated to include the definition of a voting member, when and how often elections will be held, length of terms, and a new address for the home of USYaks.
- A new webmaster will be needed for the website and possibly switching from Wix to WordPress.
- Ted spoke about some issues with Gene Seek and a permanent liaison needs to be found between USYaks and Gene Seek. There was an issue with the last batch of samples sent into the company. Other labs are being considered.
- Ear tags are being ordered from a new company.
- Eddie will work on the Match-a-yak program for the website.
